Experience

Senior UX Engineer

Sportradar d.o.o.

Feb. 2023 - Present

Sportradar is a global company with diverse teams and needs. As a **Senior UX Engineer** in the internal **Design System Team (Podium)**, I **bridge the gap between Design and Development**. I develop **ReactJS** components using **Module SCSS** and **Design Tokens**.

I also act as a **Tech Lead**, mentoring another **Frontend Engineer** and guiding how the UI Library evolves with contributions from other developers. We build components with the **MantineUI Library**, leveraging its advanced logic for complex features. The library is now adopted by **120+ developers** and used across **50+ production environments**. Our vision is to enable **faster product delivery**.

In addition, I switch into a **UX/UI Designer** role, creating **mockups** for internal tools used by Sportradar employees. My work involves **design research, usability testing, and developer experience research** for Podium, collaborating closely with developers who consume our library.

Web developer

Issimo Fit d.o.o.

ChiliDigital

Aug. 2022 - Dec. 2022

Worked as a certified **HubSpot web developer, UX Designer** and consultant. I developed a HubSpot CMS website **Reise Medizin Zürich** (www.reisemedizin.uzh.ch), working with the ChiliDigital team, I was mainly responsible for the **Front-end development** and minor **UX consulting**. Spoke with the clients and developed various user friendly modules for the content editors to use and edit the CMS. I learned how to properly assess and **optimize SEO**.

Jr. Front-end Developer

Kalmia d.o.o.

Jan. 2022 - Jun. 2022

Reworked HTML & SCSS theme made in VueJS2, from light theme into dark theme at **Authtrail** (www.authtrail.com). Worked in **VueJS2/3, NuxtJS, Composition API, SCSS**, using **transition animations** and **mobile first responsive development** on **Planica NFT** (www.planicanft.com), **Izumi World** (www.izumiworld.com), **Kalmia homepage** (www.kalmia.si). Cooperating with inhouse and external UX UI Designers and clients.

UX/UI Designer & Front-end Developer

Cosylab d.d.

Jan. 2021 - Jan. 2022

Made **high** and **low fidelity prototypes** and held several **user testings** with doctors and medical physicists. Worked as a **User Exeperience designer** and **Front-End developer** developing an Oncology Information System using **ReactJS** and **Bootstrap 4**. Designed a **User Interface design system** for a handheld medical device.

Profficiently used **Figma** and **Zeplin** to create functional **design systems** for the Front-end engineering teams.

UX/UI Designer

Comtrade Gaming

Apr.2020 - Dec. 2020

Designed **high fidelity mockups** for a Back Office System for various Casinos with Figma. Worked closely with **Front-End developers** and created **quick prototypes** using **web browser developer tools**.

UX/UI Designer

HYCU Inc.

Mar. 2018 - Apr. 2020

Designed **high fidelity mockups** for a Backup and Restore System application - a spinoff start-up company. Worked closely with the **Front-End Developer team** and provided them instructions and **Zeplin developer handoffs**. Cared for **Interaction Design** throughout the application. **Mentored** outsourced graphic designers about User Interfaces and Icons.

UX/UI Designer

Comtrade Software

Sep. 2016 - Mar. 2018

Designed **low and high fidelity prototypes** for a future to be Backup and Restore Application. Worked with **JQuery, Bootstrap 3** and **Sass**, to help provide early prototypes of the above mentioned applicationy. I also worked as a **Front-end developer** on two other proof of concept applications.

Intern UI Designer

KNAPP AG

Jul. 2014 - Sep. 2014

Designed **icons** and **high fidelity mockups** and **prototypes** for various Warehouse Logistics application systems. Wrote and provided clear **design systems** for the developers.

Web designer

Bienengesundheit.at

Apr. 2015 - Mar. 2016

Designed **high fidelity mockups** and helped design and program a web application for the protection of bees. Worked mainly with **JavaScript Libraries, CSS** and **HTML** and some **PHP** for Wordpress.

Education

Master of Arts in Interaction Design

FH Joanneum Graz

Oct. 2014 - Aug. 2016

Worked on a lot of practical projects, using **Arduino Microcontrollers, graphical programming applications**. Worked for a coding for kids application for Windows Phone - Pocket Code as a **UX UI Designer**. Created a Nutritional visualization mobile prototype application and hacked with **Node Js** and **D3 Js** to create an industrial weight scale show nutritional graphs of fruit and vegetables. Learned **User Experience design** on various real world projects and used programming and visual programming tools to create small applications.

Bachelor of Arts in Visual Communication

FERI Maribor

Oct. 2008 - Aug. 2013

Studied about Media Sciences but focused on Visual Communication and Design. Worked as a main **graphic designer** for a student magazine and as a main **graphic designer and photographer** for the University of Maribor campaigns. Worked in an Advertising Agency as a **graphic design intern**.
